Dr. Charles C. Edwards  
Commissioner of Food and Drugs  
Department of Health, Education  
and Welfare  
Washington, D. C.

Dear Dr. Edwards:

About six weeks ago I wrote a letter to the Hearing Clerk of DHEW requesting clarification of the proposal of the Food and Drug Administration listed in the Federal Register, Vol. 36, No. 18, Wednesday, January 27, 1971. As of this date, I have received no answer. Presumably, my letter has been lost in the bureaucratic maze.

Enclosed is a copy of my letter. I would appreciate a word of clarification concerning the questions raised. It seems to me there are very severe implications for our research programs contained in these proposals. I know that the Society of Nuclear Medicine, among other groups, has raised objections to these proposals but I do not believe the specific questions I have asked are included in their critiques.

Sincerely,

Harold L. Atkins, M. D.
