

BROOKHAVEN NATIONAL LABORATORY

MEMORANDUM

718314

DATE: October 5, 1993

TO: R. E. Hughes

FROM: N. P. Samios *NPS*

SUBJECT: Response to the 1993 AUI Visiting Committee on the
BNL Medical Department

I attach a rather lengthy response to the Medical Department Visiting Committee report by Drs. Darrel Joel and Richard Setlow. There is very little to add except to concur both with the observations and comments made by the Committee and the responses. In all, a very worthwhile exercise that should benefit the Department and the Lab.
