ADDRESS REPLY TO:

OFFICE FOR INTERNATIONAL CONFERENCE
U. S. ATOMIC ENERGY COMMISSION
WASHINGTON 25, D. C.

April 26, 1955

IN REPLY REFER TO:

M.1-311

Dr. J. W. Howland
Atomic Energy Project of
The University of Rochester
School of Medicine and Dentistry
Rochester, N.Y.

Dear Dr. Howland:

We greatly appreciate your contribution to planning for the International Conference on Peaceful Uses of Atomic Energy by submission of an abstract:

"The Isotope Center: A Study in Safe Clinical Usage of
Radioactive Isotopes over a Wide Geographic Area"

We have received altogether over one thousand abstracts which have been examined by special review committees and which have been invaluable in arranging a presentation to the United Nations covering as much as possible of U.S. work pertinent to the conference. Both the diversity of subjects to be covered and the number of abstracts are such that only a small fraction of those received could be included in the program. In many cases authors have therefore been asked to broaden the scope of their papers to include all U.S. work in the particular field, with due credit to those whose work is included. Although it has not been possible to include your abstract individually, a list is enclosed of the titles included on the session under which it was considered. We urge you to cooperate with authors on that session by communicating to them such information on your work as you are willing to have included and judge to be appropriate to their topic. Since all authors have been asked to submit their papers before May 20, 1955, they probably would wish to receive information as soon as possible.

Sincerely yours,

Paul W. McDaniel

SESSIONS H.1, H.2: THE APPLICATION OF NUCLEAR ENERGY IN THE
SOLUTION OF SPECIAL PROBLEMS IN BIOMEDICAL RESEARCH

(6 Hrs.)

TITLE	AUTHOR	ORGANIZATION	ABSTRACT
Use of the Nuclear Reactor for Neutron Capture Therapy of Cancer	L.E. Farr	BNL	492
Changing Frontiers of Biochemistry in an Isotopic Age	A.B. Hastings	Harvard	198
Studies on the Uses of Isotopes in Analyses of Metabolic Diseases	DeWitt Stetton	NIAMD	
Teletherapy Devices With Radioactive Isotopes	H. Brucer	ORINS	120
The 'Dynamic' Aspects of Erythropoiesis in Normal and Pathologic States as Indicated with Radioactive Isotope Tracers"; the Use of Radiosodium and Radiopotassium Tracers Studies in Man"	J. F. Ross	UCLA	
Scanning of Positron-Emitting Isotopes in Diagnosis of Intracranial and Other Lesions	W. H. Sweet	Mass. Gen. Hospital	24
The Role of Radioactive Isotopes in Immunologic Investigation	F. J. Dixon	Univ. of Pittsburgh	738
Radioisotopes in Hematologic Therapy	J.H. Lawrence	UCRL	840
Therapeutic Usefulness of Radioactive Colloids; Comparative Value of Gold 198, Chromic Phosphate (P32), Yttrium 90 and Lutacium 177	G.A. Andrews	ORINS	123
Treatment of Incapacitated Euthyroid Cardiac Patients with Radioactive Iodine	H.L. Blumgart	Beth. Israel Hospital	103
Carcinoma of the Cervix: Results Obtained From the Irradiation of the Parametrium With Radioactive Colloidal Gold	W. M. Allen	Wash. U.	289
Integration of a Radioactive Isotope Program into Medical School Research & Teaching	A.K. Solomon	Harvard	195
Dental Uses of Isotopes	W.W. Wainwright	Univ. of So. Calif.	865

1129831

UR 02375

SESSION M.1, M.2 (Continued)-page 2

TITLE	AUTHOR	ORGANIZATION	ABSTRACT
The Measurement of Thyroid Gland Uptake and Turnover of I-131 in Man	A.S. Freedberg G.S. Kurland	Harvard	419
Isotopes in the Study of Red Cell Volume, Production of Life Span	N. I. Berlin J.H. Lawrence	Univ. of Calif.	429
The Radioactive (I-131-tagged) Rose Bengal Liver Uptake Excretion Test. Its Value in the Differential Diagnosis of Hepatic Disease	G. V. Taplin O.M. Meredith H. Kade	Univ. of Calif.	235
Isotopic Studies of Steroid Metabolism in Man	L. Hellman G. LeRoy	Sloan-Kettering U. of Chicago	466
The Localization of Eye Tumors With P-32	J.S. Krohmer et al	Western Reserve Univ.	442
Biosynthesis of Abnormal Proteins in Multiple Myeloma	F.W. Putnam	U. of Chicago	216
The Use of I-131 Labeled Serum Albumin in the Study of Cardiac Output and Peripheral Vascular Flow	W.J. MacIntyre et al	Western Reserve Univ.	441
Steroid Metabolism	R.I. Dorfman	Worcester Foundation	275
Radioactive Iodine or Surgery in the Treatment of Thyrotoxicosis	D.E. Clark	Univ. of Chicago	217
Body Composition in Normal and Abnormal States	W. Siri	Univ. of Chicago	829
Thyroid Radiiodine Uptake Calibration	M. Brucer, et al	ORINS	121
Pre-Therapeutic Considerations for 70 Mv-X-Rays	G. D. Adams R. S. Stone	Univ. of Calif.	745
Possibilities and Limitations of In Vivo External Counting Techniques in Biology & Medicine	B. Cassen	Univ. of Calif.	234
Tissue Specific Antibodies as Carriers of Radioactive Materials for the Treatment of Cancer	W. F. Bale, et al	Univ. of Rochester	454
Isotope Therapy for Carcinoma of the Pancreas	P.V. Harper K.A. Lathrop	Univ. of Chicago	210

1129832

TITLE	AUTHOR	ORGANIZATION	ABSTRACT
Radiation Hypophysectomy and Related Studies Using 190 Mev Deuterons and 340 Mev Protons	C.A. Tobias, et al	Univ. of Calif.	775
A Sr-90 Surface Applicator Designed for Treatment of Corneal Lesions and Evaluation of Biological Effects	H.L. Friedell, et al	Western Reserve Univ.	443
Versatility of Radioactive Gold in Treatment of Malignant Disease	P. F. Hahn	Meharry Med. College	9
Diagnostic Procedures	S.C. Werner	Columbia U.	177
I-131 Therapy of Hyperthyroidism	S.C. Werner	Columbia U.	178
Physiological and Biochemical Studies of AT-211 (Eka-Iodine) and Their Possible Therapeutic Application	J.C. Hamilton	Univ. of Calif.	428
Radioisotope Use in Medical Diagnosis	R. L. Huff	Univ. of Wash. Sch. of Med.	399
Radiation Hypophysectomy Using Y-90 Pellets	P. V. Harper, et al	Univ. of Chicago	208
Artificial Radioisotopes in Nylon Ribbons for Implantation in Neoplasms	U.K. Henschke	Ohio State	300
Kilocurie Revolving Cobalt-60 Unit for Radiation Therapy	L. H. Lanzl, et al	Univ. of Chicago	206
Cobalt 60 Teletherapy Isodose Patterns for Combined and Non-Uniform Longitudinal and Non-Uniform Longitudinal and Transverse Source Motions	C.B. Braestrup B.T. Mooney	Frances Delafield Hospital	290
Biological Studies on Lanthanum, Yttrium, Calcium & Strontium	D. Laszlo	Nontefiore	742
The Distribution & Excretion of Uranium in Man	E.C. Struxness	ORNL	554
Studies on the Metabolism of Tubercle Bacilli and Their Fate After Phagocytosis	M.L. Karnovsky	Harvard	197
Use of Radioactive Metabolites in Studying the Modes of Action of Anticancer Agents and Searches for Exploitable Biochemical Differences Between Normal and Cancer Cells	N.E. Skipper	Kettering- Mayer Lab.	836

1129033

SESSION M.1, M.2 (Continued)- page 4

TITLE	AUTHOR	ORGANIZATION	ABSTRACT
The Use of Radioactive Tagged Red Cells and Platelets to Study the Phenomsnon of Sequestration	W.H. Crosby	Dept. of Army	286
The Stability of Human Serum Lipoproteins as Measured with Radiophosphorus	W.H. Florsheim M.E. Morton	Va. Hosp. Long Beach, Calif.	115
Studies on the Plasma Protein-Thyroid Hormone Complex in Man	A.S. Freedberg M.W. Hamolsky	Harvard	418
Studies of the Use of Rb86 as a Tracer	G.E. Burch	Tulane Univ.	268
Electrolyte Studies in Man with and Without Congestive Heart Failure, Using Na22, Na24, Rb86, Cl36, & Hg203	C. E. Burch	Tulane Univ.	269
Biochemical Changes of Experimental Precancer. Amino Acid Metabolism in the Isolated Perfused Rat Liver Studied with the aid of Lysine-6-Cl4 and Histiding-2-Cl4	L.L. Miller W.T. Burke	Univ. of Rochester	301
The Application of Radioisotopes to the Study of Cancer Induction	C.Heidelberger	Univ. of Wisconsin	736
Absence of Amino Acid Incorporation into Antibody During the Induction Period	W.H. Taliaferro D.W. Talmage	Univ. of Chicago	190
The Metabolic Fate of "Internally" and "Externally" Labeled Protein Antigens	F. Haurowitz	Indiana Univ.	762
Preliminary Observations on the Clinical Uses of Cobalt Teletherapy	W.R. Lovelace	Lovelace Foundation	795
