Attention: Dr. C. E. Larson, Director, Oak Ridge National Laboratory

Subject: HEALTH PHYSICS TRAINING OF ARMED FORCES SPECIAL WEAPONS
PROJECT MEDICAL OFFICERS.

Gentlemen:

The following AFSWP Medical Officers are now attending the course of
Radiobiology at Reed College:

Major W. J. Waldmann, MC	Lt. Rinaldo V. Kron, MC, USNR
Captain E. F. Chandler, MC	Lt. Harold A. Davis, MC, USN
Captain R. E. Ogborn, MC	LTJG C. K. Deeks, MC, USNR
Lt. Donald M. Hayes, MC	Major Carl L. Hansen, Jr., USAF (MC)
Lt. Harry A. Claypool, MC	Captain E. R. Ballinger, USAF (MC)
CDR K. W. Schenk, MC, USNR	1st Lt. Donald E. Upp, USAFR (MC)
Major Ulysses S. Grant Kuhn, III, USAF Veterinary Corps	

It is tentatively arranged with the Oak Ridge Institute of Nuclear Studies
for these officers to enroll in the Radioisotope Technique Training Course,
March 2, 1953, for the one month course.

AFSWP has also requested that the above officers receive the two months
on-the-job training in Health Physics at Oak Ridge National Laboratory
to begin on or about April 1, 1953.

This is a continuation of a training program which has been given at ORNL
for the past several years, and we assume that ORNL is willing to continue
providing this training.

// Your comments on the above proposal will be appreciated. //

Sincerely yours,

Kenneth Kasschau
Director
Office of Research & Medicine

CC: Mr. C. E. Center
Mr. S. R. Sapirie
