Page 7847. The authors regret that one mistake was made in their paper. In Figure 4b, the “Endo-Exo” direction was

Figure 4. (b) Experimental DSC curve of 70Li₂S-30P₂S₅ glass. Blue dashed lines denote the glass-transition temperature (T_g) and crystallization temperature (T_c).

supposed to be reversed. When the orientation is corrected, T_g is assigned an endothermic process and T_c is assigned an exothermic process. A corrected Figure 4b (along with its original caption) is provided. Although the error was present, it does not affect the interpretation and conclusions of the manuscript as a whole. The authors apologize for any inconvenience this may have caused the readers.
