

Major ALEGRA Scaling Bug Found in 2007

SAND2011-3384C

- Scaling issue noticed above 5,000+ processors in 2007
- Issue traced to a collective communication call “Pcout().flush()”
- **Fixed by changing location of a single line of code**
- **Bug had been in code since 2003 (4 years)**
- **Lesson: Scaling failures can emerge as code or platforms evolve!**

Sandia National Laboratories is a multi-program laboratory operated by Sandia Corporation, a wholly owned subsidiary of Lockheed Martin company, for the U.S. Department of Energy's National Nuclear Security Administration under contract DE-AC04-94AL85000.
