

NWIS

Just Like Prego, It's In There

June 12, 2007

**Robbie Evanoff, SNL
NWIS Project Lead**

Outline

- **NWIS defined**
- **What it tracks**
- **Integration with our cyber environment**
- **Benefits**
- **On going projects**
- **Boring statistics**

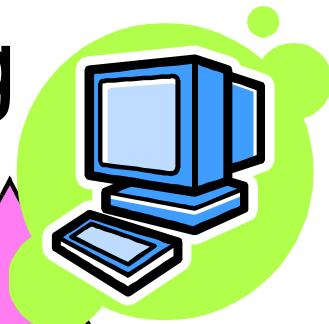

What is NWIS?

- Network Information System
- Started in 1996
- More than just a database

What does NWIS track?

Computing
Devices

People

Cyber
Security

Connections

Computing Devices

- **Records all computing devices**
 - Desktops (28K); laptops (12K); servers (3.5K)
 - Thin clients (2.6K); hard drives (800)
 - Printers (3K)
 - Handhelds (2K)
 - Network equipment (3K)
- **Records who is responsible**
 - Owner & location
 - System Administrator

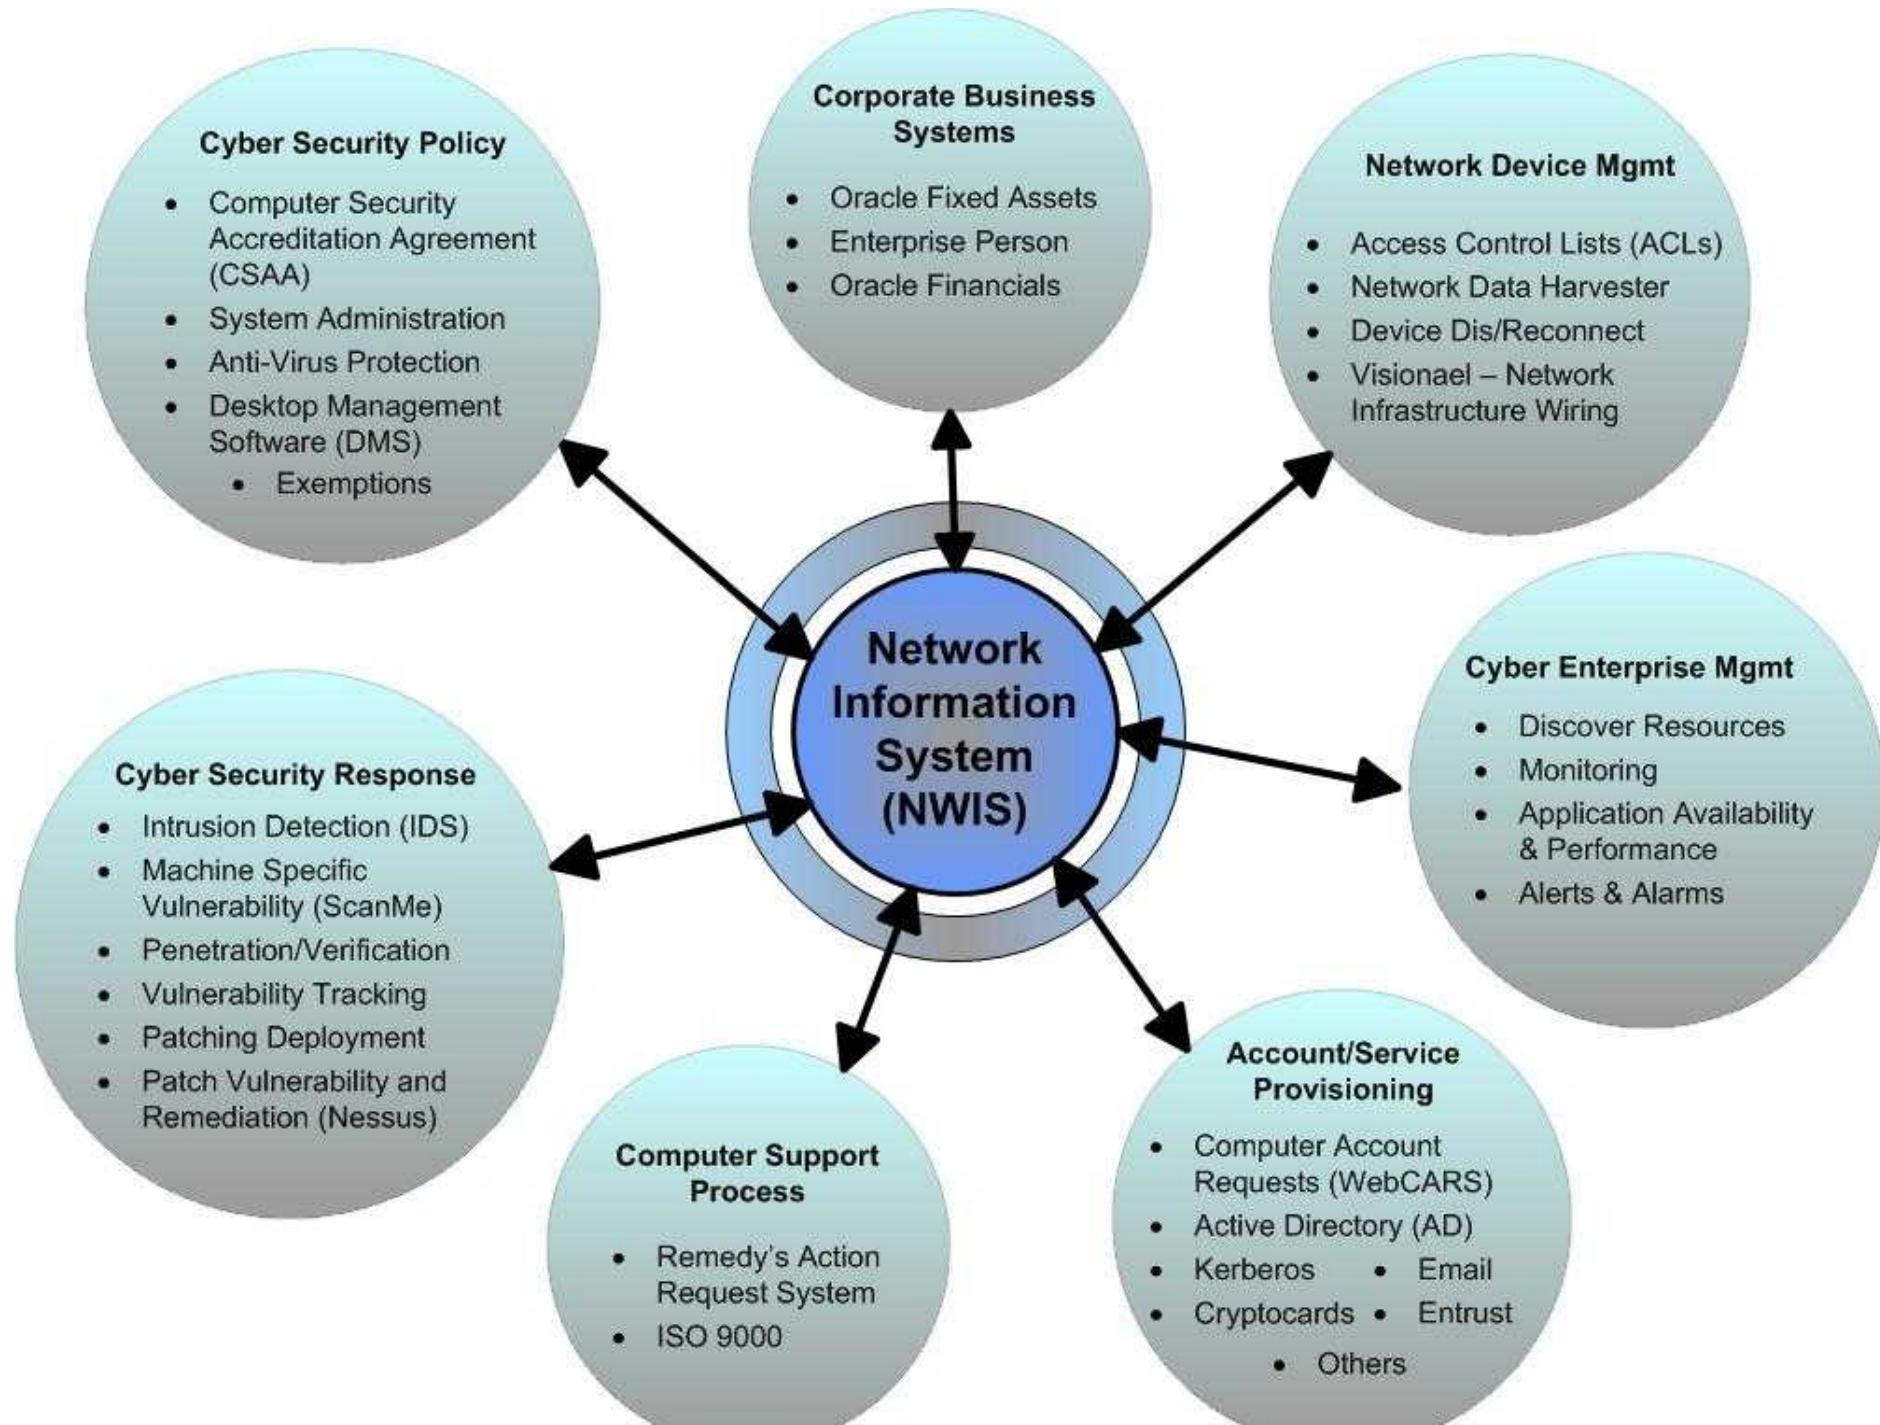

Connections

- Our network environment
 - 17 networks; 1K subnets; 239K node addresses
- Computing device connectivity recorded
- DHCP registration
- Association triggers DNS entry

People

- **Sandia's population**
 - 15K people; 1K organizations; 32 worksites
- **NWIS manages cyber resources**
 - Account/Service Provisioning (97K accounts)
 - CryptoCard/Kerberos
 - Email accounts (14K)
 - Elevated rights

Corporate Business Systems

- Oracle Fixed Assets
- Enterprise Person
- Oracle Financials

Network Device Management

- Access Control Lists (ACLs)
- Network Data Harvester
- Device Dis/Reconnect
- Visionael – Network Infrastructure Wiring

Cyber Enterprise Management

- Discover Resources
- Monitoring
- Application Availability & Performance
- Alerts & Alarms

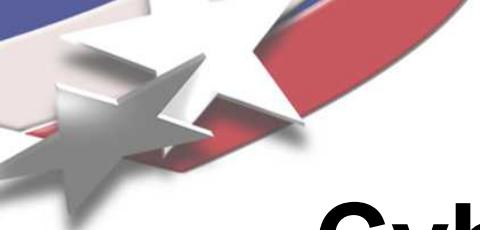

Account/Service Provisioning

- Computer Account Requests (WebCARS)
- Active Directory
- Kerberos
- CryptoCard
- Email
- Entrust
- Others (Red Storm, IMS, Reddish)

Computer Support Process

- Remedy's Action Request System
- ISO 9000

Cyber Security Response

- **Intrusion Detection**
- **Machine Specific Vulnerability (ScanMe)**
- **Penetration/Verification**
- **Vulnerability Tracking**
- **Patching Deployment**
- **Patch Vulnerability and Remediation**

Cyber Security Policy

- **Computer Security Accreditation Agreement (CSAA)**
- **System Administration**
- **Anti-Virus Protection**
- **Desktop Management Software (DMS)**
- **Exceptions**
- **Two-Factor Authentication**
- **Security Plans**

Benefits

- **Single authoritative source**
 - Quick response to DOE datacalls
 - One action provides trigger to integrating systems
 - Consequences of non-compliance can be enforced

On Going Projects

- **Laptop On Foreign Travel (LOFT)**
- **Software Assets Management System (SAMS)**
- **Web Computer Account Request System (WebCARS)**
- **Assets Inventory**
- **Skies the limit**

Boring Statistics

- **SQL Server 2005 Database**
 - 195 tables
 - 710 stored procedures
- **Batch processing**
 - Windows Scripting using javascript
 - 203 daily/weekly/monthly jobs
 - 67 majordomo files created for Outlook
- **On-line processing**
 - 625 ColdFusion pages using javascript
- **700 users with update capability**
