- Nicole Ballard – VDI Service Manager, Sandia National Laboratories
- ~1300 Desktops Mix of Full Clone persistent, Linked clones, Persistent with layering
- 40-50 applications layered
- In the layered environment, one gold image. In linked clones, many
- Estimated number of various desktop configurations – 532,466

- The biggest impact of layering on the environment is:
  - 1. Adoption – Capturing customers I couldn't before
  - 2. Decrease custom pools

What has layering has done for me lately?
