BEFORE GOING TOO FAR
MAKE THE CONNECTION

Security
Connection

Launching August 28, 2015

Exceptional service in the national interest

Yes, we heard you.

On August 28, 2015 you'll be able to make a new SECURITY CONNECTION.

We've heard your concerns and improved our site. By implementing your suggestions, and adding a few of our own, protecting our nation by protecting our information is easier with the new Security Connection website. It's your single point of reference that provides you with up-to-date security information. So, before going too far or second guessing security related matters, make the SECURITY CONNECTION.

Improved Security Connection Features:

- Easy access to important contact information
- Robust search capability for security related articles (guidance and instructions), tools, and resources
- Save and access your "favorite" security resources using the new **My Security** feature
- Subscribe to be notified about changes to security related articles (guidance and instructions).
- View end-to-end process flowcharts and checklists of the most commonly asked Security Connection questions.
