

Christina Baca became a member of Sandia National Laboratories on July 25, 2011. She was hired as a Grade 1 custodian, mastered all four duties and received Certifications in all OS1 processes. Within 2 years of working as a grade 1 custodian, Christina was promoted to Grade 3 Floor care team. Christina learned all floor care processes in both hard floor and carpet surfaces.

Christina's greatest assets are her work ethics, professionalism, attention to detail and above all, her integrity. Safety at Sandia National Laboratories is first and foremost, and Christina definitely practices safe work practices daily.

Christina is a team player who performs all her task at the highest level and has received many accolades for her quality of work and attention to detail. She never compromises her performance, is detail oriented, customer driven, safety conscious, and when all her task are completed, she can always be found assisting others, cleaning equipment, or stocking supplies for the next day.

Christina was nominated as the Custodian of the Year by the Grade 4 Team Leaders. Her Team Lead, who considers everyone on the floor care team a winner, stated that Christina is the driving force of Sandia National Laboratories core values by doing What's Right, Respecting Others, and performing with excellence even when no one is looking.

Sandia National Laboratories is proud to have Christina represent the department as Custodian of the Year for 2015
