## **Abstract**

The 2018 Annual Terrestrial Sampling Plan for Sandia National Laboratories/New Mexico on Kirtland Air Force Base has been prepared in accordance with the “Letter of Agreement Between Department of Energy, National Nuclear Security Administration, Sandia Field Office (DOE/NNSA/SFO) and 377th Air Base Wing (ABW), Kirtland Air Force Base (KAFB) for Terrestrial Sampling” (signed January 2017), Sandia National Laboratories, New Mexico (SNL/NM). The Letter of Agreement requires submittal of an annual terrestrial sampling plan.

**2018 Annual Terrestrial Sampling Plan for  
Sandia National Laboratories/New Mexico on  
Kirtland Air Force Base**

The “*Letter of Agreement Between Department of Energy, National Nuclear Security Administration, Sandia Field Office (DOE/NNSA/SFO) and 377<sup>th</sup> Air Base Wing (ABW), Kirtland Air Force Base (KAFB) for Terrestrial Sampling*” (signed January 2017), Sandia National Laboratories, New Mexico (SNL/NM) requires submittal of an annual terrestrial sampling plan by January 31 of the subject year.

This document details the 2018 collection of environmental media and deployment of dosimeters at locations on KAFB.

Sampling activities are performed in May and September of the subject year. Sampling consists of collecting appropriate volumes of soil, sediment, and vegetation as well as submitting the samples for analysis. In general, soil, sediment, and vegetation samples will be analyzed for select suite of metals, radionuclides, and tritium. High explosive analyses will be included at a limited number of sites. Any abnormalities in analytical results that could result in regulatory compliance issues will be coordinated with the 377<sup>th</sup> ABW, KAFB. In addition, coordination with the 377<sup>th</sup> ABW, KAFB will occur for the preparation of any press release. After analysis, validation, and review, the data will be published in the SNL/NM Annual Site Environmental Report (ASER). A copy of the ASER will be made available to the 377<sup>th</sup> ABW, KAFB and the public at the following website:

<http://www.sandia.gov/news/publications/environmental/index.html>

Specifics of the sampling locations, media, and analytical methods are provided in the attached tables. A map of the sampling locations is also provided. This information is from the “*Terrestrial Surveillance Program Plan*” (Revision 6), Sandia National Laboratories, Albuquerque, New Mexico (March, 2015). The following are included:

- Table 1 Terrestrial Sampling Location Information
- Table 2 Sampling Media and Analytical Parameters
- Table 3 Analytical Methods
- Figure 1 Terrestrial Sampling Locations on KAFB

**Table 1. Terrestrial Sampling Location Information**

Location Number	Sampling Location	Township, Range, Section	X-East (NAD 83)	Y-Northing (NAD 83)
S-1	Pennsylvania Ave	9N, 4E, 8	1551156.93	1465679.31
S-7	Unnamed Arroyo (north of TA-V)	9N, 4E, 17	1555133.55	1455506.98
S-20	TA-IV (southwest)	9N, 4E, 5	1551789.48	1467245.18
S-33	Coyote Springs	9N, 4E, 24	1574275.53	1455014.85
S-34	Lurance Canyon Burn Site	9N, 5E, 16	1593567.21	1457230.81
S-48	Tijeras Arroyo (east of TA-II)	9N, 4E, 5	1555575.75	1468811.67
S-51	TA-V (north of culvert)	9N, 4E, 17	1554602.09	1455450.10
S-55	Large Melt Facility, Building 9939	9N, 4E, 27	1563282.88	1446748.74
S-72	Arroyo del Coyote (midstream)	9N, 4E, 24	1574951.62	1455094.59
S-74N	TA-IV, Tijeras Arroyo, midstream	9N, 4E, 5	1554778.75	1467420.93
S-75	Arroyo del Coyote (downstream)	9N, 4E, 16	1555742.95	1459371.34
S-76	Thunder Range (north)	9N, 4E, 21	1558297.09	1450369.73
S-77	Thunder Range (south)	9N, 4E, 33	1560186.31	1443176.24
S-83	Tijeras Arroyo Groundwater Well	9N, 4E, 5	1554069.66	1468689.55
S-85	Arroyo del Coyote Cable Site	9N, 5E, 17	1587981.92	1456933.89
S-86	Corner of Wyoming and S Street	9N, 4E, 5	1550552.83	1468894.92
