

Sandia National Laboratories – DOE FE Oil & Gas Capabilities

**Erik Webb / Leigh Cunningham
SNL FE Program**

DOE Program and SNL Capabilities

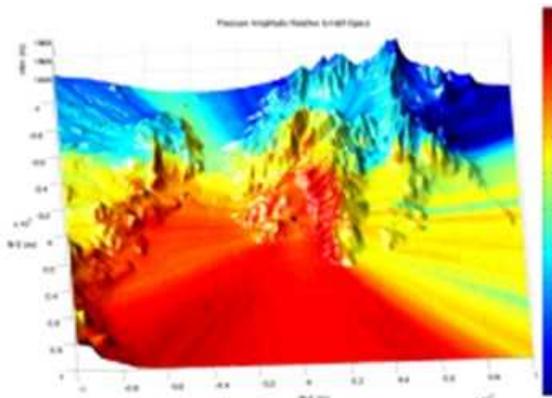

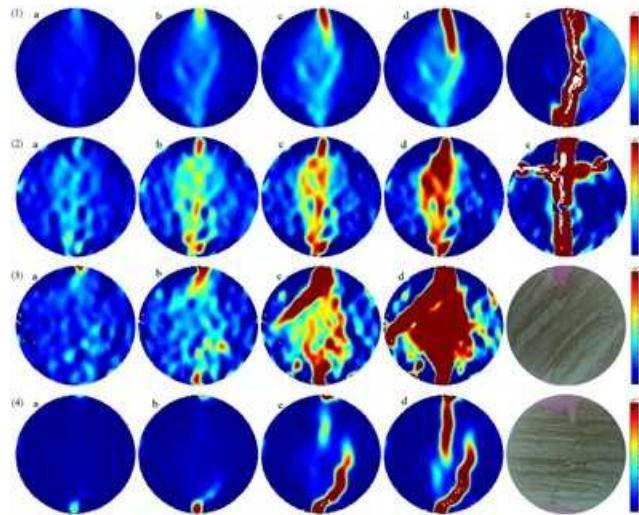

Sandia National Laboratories Capability

DOE FE O&G Challenges

	Characterization, Sensing, & Imaging	Field & Pilot Scale Testing	Drilling Technology & Down Hole Tools	Robotics	Materials Design & Manufacture	Modeling & Simulation	Exascale & Data Analytics
Unconventional Efficiency	✓	✓	✓		✓	✓	✓
Produced Water Management		✓			✓	✓	✓
Midstream: Safe Transport, Infrastructure, Cyber, Integrity & Storage	✓	✓		✓	✓	✓	✓
Deepwater	✓	✓	✓	✓	✓	✓	✓

Unconventional Efficiency

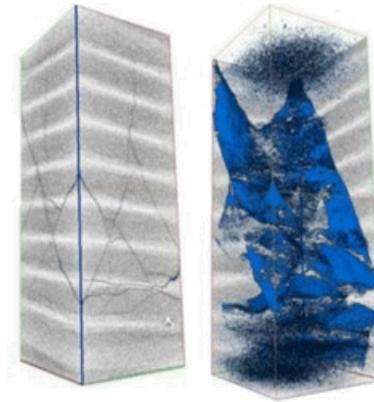

Basic Research: Shale Poromechanics

**Seismic, Micro, EM,
Infrasound Character &
4D analysis**

Molecular, nano, micro, macro and field scale testing / modeling of integrated mechanical/chemical systems

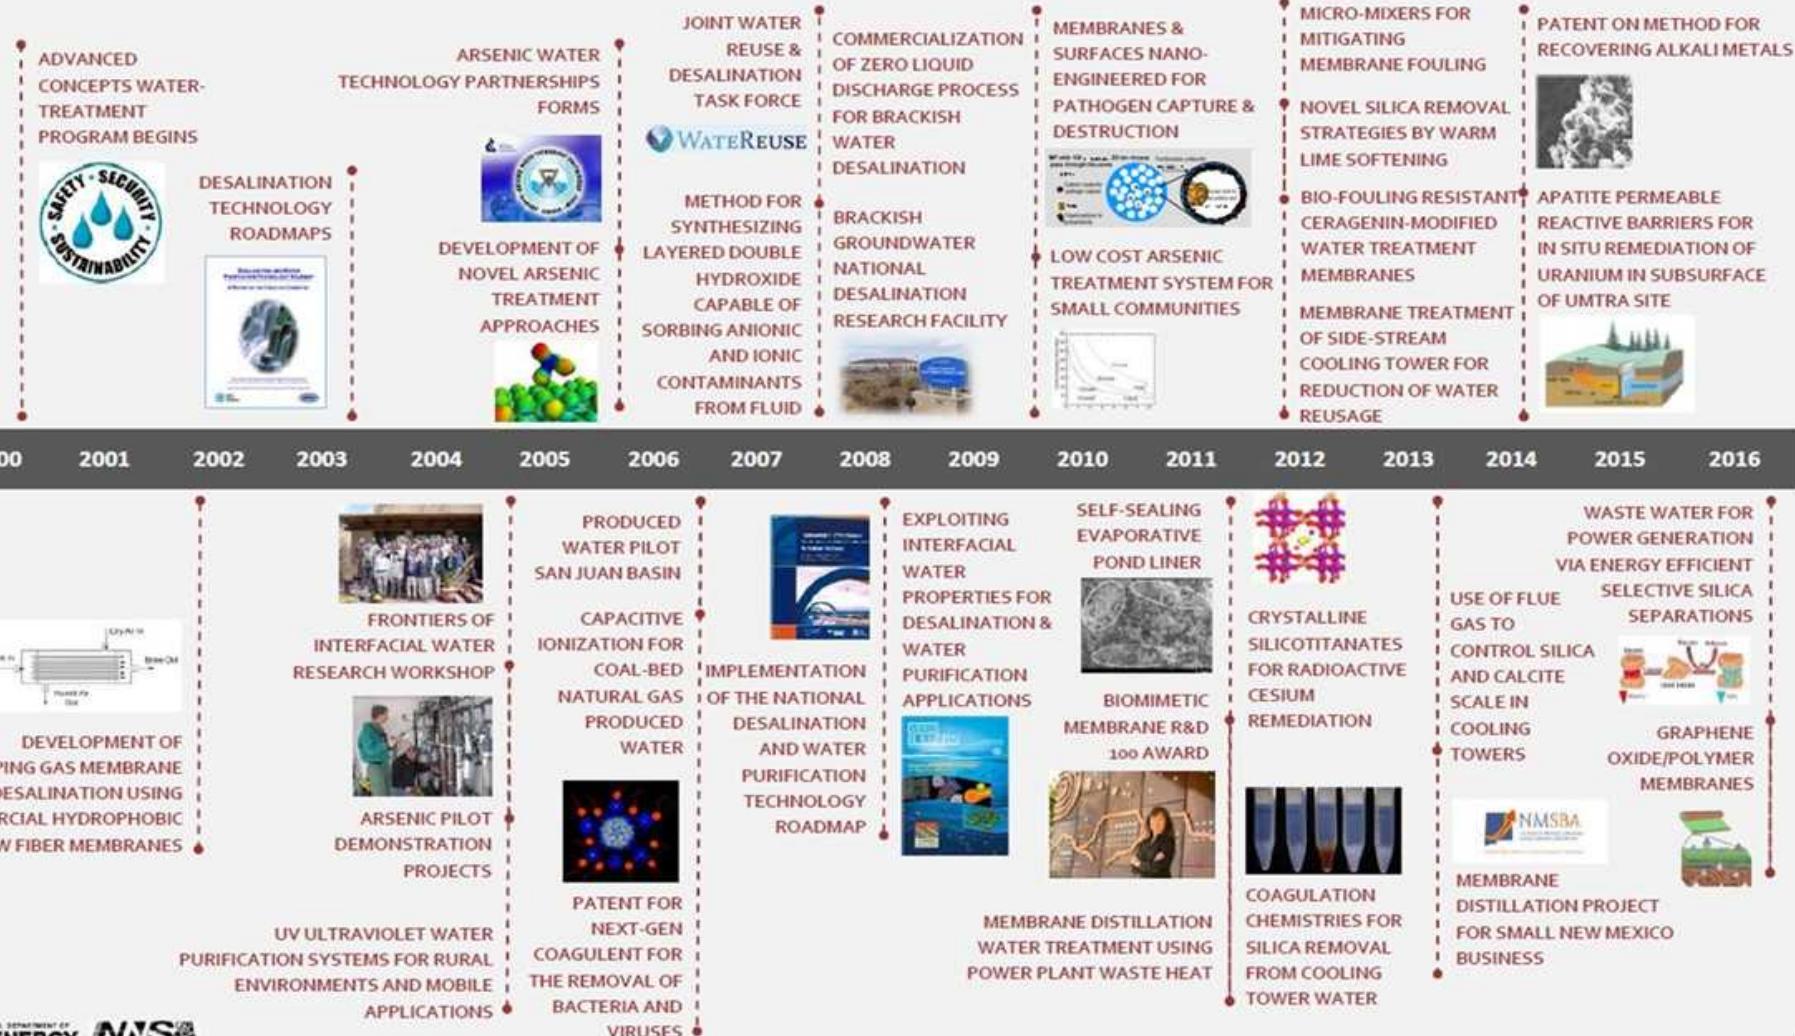

**Subsurface Access,
Fracking, downhole
interrogation, micro/nano tools**

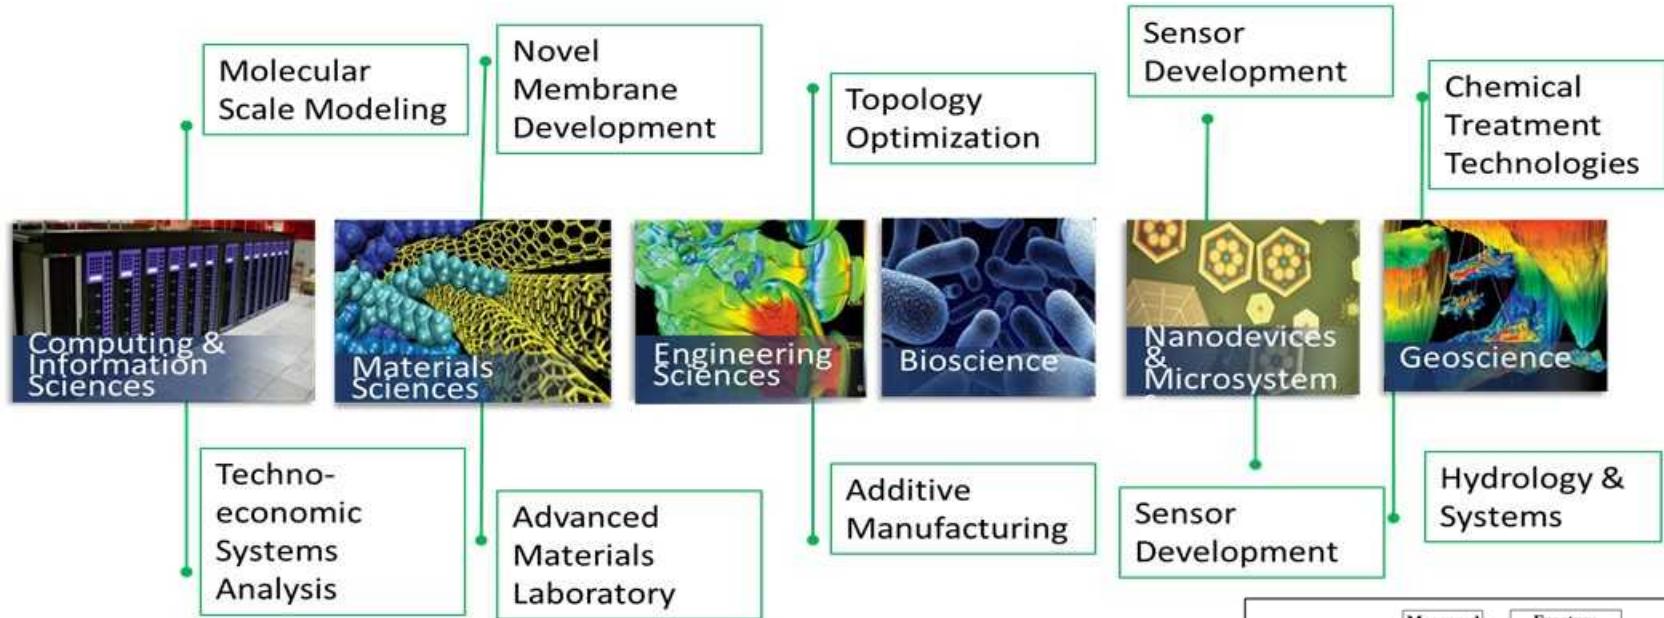

Produced Water Treatment and Analysis

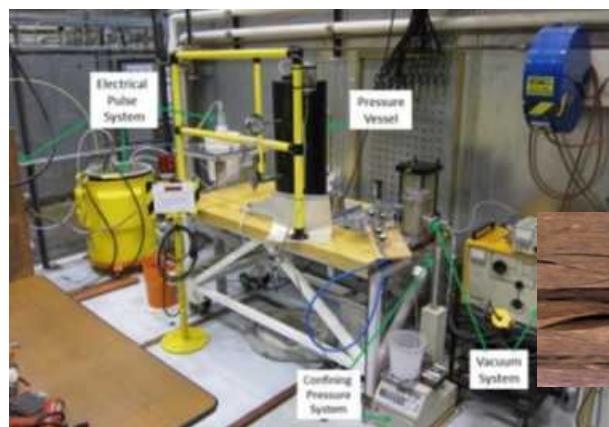

Sandia has been actively working in a broad range of water treatment technical challenges for nearly 20 years

Produced Water Management

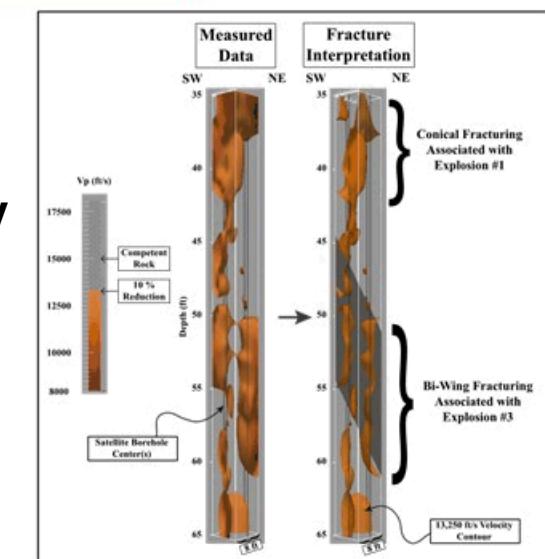

Water Treatment Technology

Efrac

**Waterless,
High Energy
Fracking**

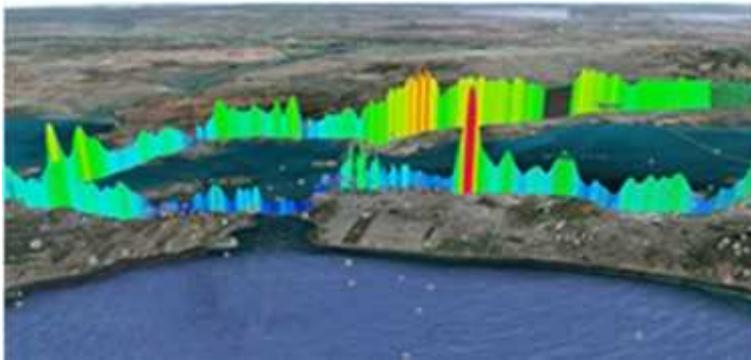

Midstream:

Safe Transport, Infrastructure, Cyber, Integrity & Storage

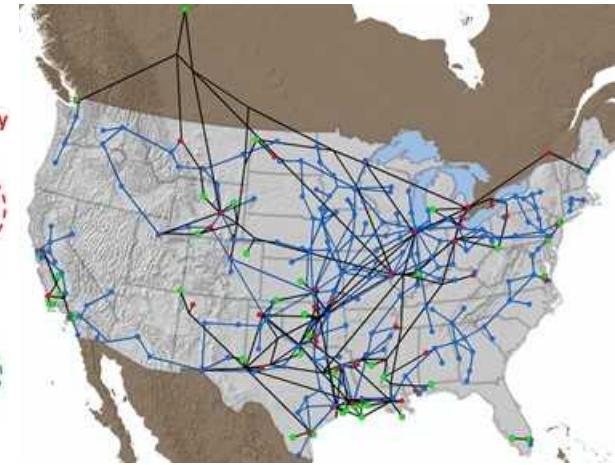

Trans liquids/gases, character, risk analysis, fire / mechanical test

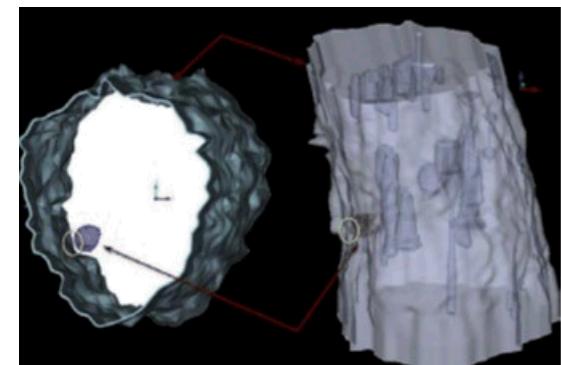

Methane, Black Carbon, CO₂ Monitoring & Optimization

Value Chain, Nat Gas to Liquid Model

Cyber Security , Nat. Transp Fuel Model, TAP, State of Health, Risk, Systems

Subsurface storage of liquids/gases & Well integrity & seal materials

Deepwater

Engineered Collectives

Automation & Mobility

**Embedded Analytics,
Intelligence & Sensors**

Logistics and Systems Optimization

Intelligent Machines & Optimized Manufacture
