

DANTE TECHNICAL UPDATE: CURRENT & FUTURE STATES

Sandia National Laboratories is hosting a technical update on current and future work on Dante and Umbra initiatives.

JANUARY 21-22, 2020

Sandia National Laboratories L'Enfant Plaza, Washington DC

Technical Update

Bringing together government agencies to share and communicate short/long term developments of Umbra and solicit feedback

Sessions

Attendees will have their choice of a morning session on either the 21st or 22nd and optional individual sessions will be held in the afternoon

2 Hour Morning Session:

Recent update to Dante and a new vision for Umbra

Afternoon Sessions:

Optional one-on-one with an Umbra developer for specific discussions

Topics:

Unmanned Aerial Systems (UAS)/Counter UAS, Crowd Modeling, Weapons Technology, Automated Vulnerability Identification, Data Analytics, Human In-The-Loop, and more!

Please RSVP for morning/afternoon sessions by email eahr@sandia.gov

For questions regarding logistics, please contact Emily Ahr at eahr@sandia.gov or 505-844-5203.
