

This paper describes objective technical results and analysis. Any subjective views or opinions that might be expressed in the paper do not necessarily represent the views of the U.S. Department of Energy or the United States Government.

# RADIOACTIVE WASTE MANAGEMENT – It's Not All Science and Engineering

International Conference on the  
Management of Spent Fuel from  
Nuclear Power Reactors 2019

SAND2019-6342C

Learning from the Past,  
Enabling the Future

#SFM19

24–28 June 2019  
Vienna, Austria

Organized by the

*Evaristo J. Bonano, Janette Meacham,  
Gordon Appel,  
Sandia National Laboratories*

Sandia National Laboratories is a multimission laboratory managed and operated by National Technology & Engineering Solutions of Sandia, LLC, a wholly owned subsidiary of Honeywell International Inc., for the U.S. Department of Energy's National Nuclear Security Administration under contract DE-NA0003625. SAND

Science & Engineering  
answer the safety  
questions on a radioactive  
waste management project

But...

How can a project be  
certain of the accuracy of  
those assertions?

Let's look at the underlying  
processes and systems  
that demonstrate reliability  
of the information
