

Exceptional service in the national interest

Cyber Engineering Research Institute (CERI)

CERI focuses on open, exploratory research in cyber security in partnership with academia and industry. CERI also serves to incubate Sandia's Cyber Security Science & Technology (S&T) activities to accelerate and deepen Sandia mission impact, push the frontiers of science through research advancements, and grow the next generation of cyber security talent for Sandia and the nation.

TWO FACILITIES

Cyber Engineering Research Laboratory (CERL)

Located in the Sandia Science & Technology Park

Cyber Technology Research Laboratory (CTRL)

Located in the Livermore Valley Open Campus

Open Research Portal, Supporting Mission Delivery

- Incubator for Cyber Research Activities
- Industry, Academia, and Government Outreach
 - Advancing Cyber Research Frontiers
 - Next Generation of National Talent
