

Exceptional service in the national interest

Natural Gas Systems

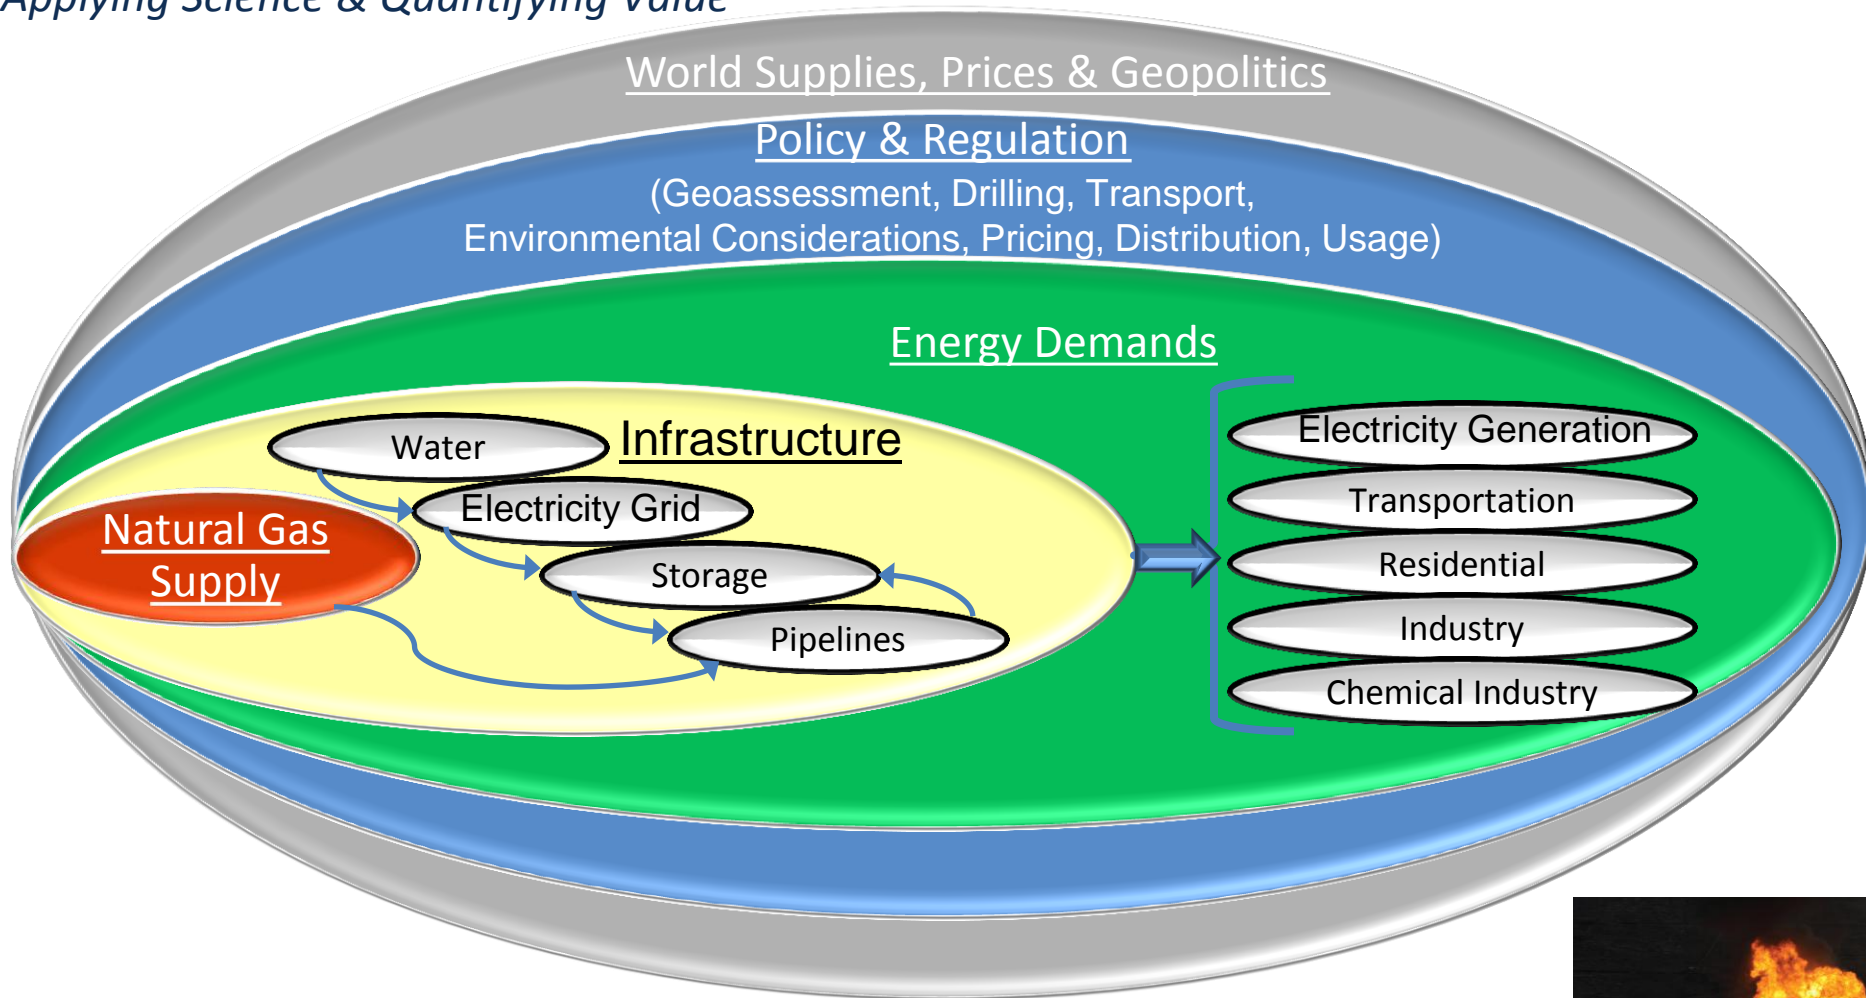

Boundaries, Modeling and Systems Analysis

Peter H. Kobos & David J. Borns

Principal Staff Economist, Ph.D.; Manager, Ph.D. Geotechnology & Engineering Dept.

The Future of U.S. Natural Gas:

Applying Science & Quantifying Value

- Natural Gas End Use Software Simulations & Hardware Demonstrations
- LNG: Safety, Security Assessments

Image of 85-m pool fire that shows flames not extending across spreading (white area) LNG pool.
