

**Opportunity Posting to Business Opportunity Website**  
**Distance Learning Needs Assessment and Platform Development**

**BOW Synopsis**

Contractor shall assist with a feasibility assessment to identify possible distance learning (DL) methods which are effective spanning a variety of geographic, political, economic, technical, and technological dimensions. In addition, the Contractor shall pilot a conversion of defined direct-learning course(s) into distance learning using platform(s)/method(s) and shall recommend next steps for addition conversions of training portfolios.

**Requirements**

**Qualification Statement:**

Please describe depth of knowledge and experience with distance learning technology applied across a variety of geographic, political, economic, technical, and technological dimensions.

Please describe knowledge, skill and experience with the learning principles needed to convert a direct-learning course into a distance-learning option by providing previous work samples.

Please describe education and experience, and provide project/event work samples which demonstrate knowledge of bio-risk management principles and practices.
