

Procurement Title* Mobile biometric test and evaluation

Statement of Work*

Expert technical services to support the identification and management of mobile biometric test and evaluation activities in partnerships with U.S. public safety. These partnerships may include testing scenarios involving emergency jail management/evacuations; monitoring and reporting on the introduction of mobile biometric devices in pilot utilizations by 1st responder law enforcement agencies located principally in the northeast and southeastern United States.

Mandatory Requirements*

Interested parties must have recent or ongoing experience in these activities as well as a history of projects undertaken that have resulted in technical reports within the past 18 months. Relevant qualifications of key personnel who would support Sandia in this work will be requested in the RFQ.
