

**NOTICE**  
**Sandia National Laboratories**  
**Notification of Class 1 Modifications to**  
**Resource Conservation and Recovery Act Permits**  
**Hazardous Waste Management Facility (HWMF)**  
**Chemical Waste Landfill (CWL)**

On behalf of the Department of Energy (DOE) and Sandia Corporation (Sandia), DOE is notifying you of Class 1 modifications to hazardous waste permits for two facilities at Sandia National Laboratories/New Mexico (SNL/NM) (EPA ID No. NM5890110518). The facilities and permits are:

- Hazardous Waste Management Facility (Operating Permit NM5890110518-1)
- Chemical Waste Landfill (Post-Closure Care Permit NM5890110518)

The HWMF is used for storage and repackaging of RCRA-regulated wastes generated by SNL/NM operations. The wastes are transported to off-site permitted facilities for treatment, storage, and/or disposal. DOE and Sandia have made the following modifications at the HWMF which affect Permit Attachment E *Contingency Plan*:

- Updated the roster of personnel who serve as emergency coordinators.

The CWL is undergoing post-closure care under a permit that was issued October 15, 2009 and became effective on June 2, 2011 when NMED approved final closure of the landfill. DOE and Sandia have made the following modifications at the CWL which affect Permit Attachment 6 *Contingency Plan*:

- Updated the list of agreements and memoranda of understanding for emergency response;
- Updated the list of emergency equipment to reflect current locations and capabilities;
- Updated the roster of personnel who can serve as emergency coordinators;
- Noted an additional evacuation route and an assembly point; with revisions to an existing figure and an additional figure;
- Updated the list of figures in the permit; and
- Corrected the contact information for one of the emergency coordinators.

In accordance with New Mexico Administrative Code, Title 20, Chapter 4, Part 1, Subpart IX (20.4.1.900 NMAC) incorporating Title 40 of the Code of Federal Regulations, Part 270.42(a) (40 CFR 270.42(a)), the all changes but one took effect on September 26, 2011. The final change (correcting the emergency coordinator contact information) took effect November 16, 2011.

These changes do not substantially alter the conditions of any of the permits (see 20 NMAC 4.1.900/ 40 CFR 270.42(d)(2)(i)) and do not reduce the capacity of DOE and Sandia to protect human health and the environment.

Any questions regarding these permit modifications may be directed toward any of the following contacts:

*Department of Energy Contact.* David Rast, (505) 845-5349.

*Sandia National Laboratories Contact.* Anita Reiser, (505) 284-4048.

*New Mexico Environment Department Contact.* John Kieling, (505) 476-6000.

**Sandia National Laboratories**

Sandia National Laboratories is a multi-program laboratory managed and operated by Sandia Corporation, a wholly owned subsidiary of Lockheed Martin Corporation, for the U.S. Department of Energy's National Nuclear Security Administration under contract DE-AC04-94AL85000.
