

**NOTICE****Sandia National Laboratories  
Notification of Class 1 Modifications  
Hazardous Waste Permit NM5890110518-1  
Hazardous Waste Management Facility**

On behalf of the Department of Energy (DOE) and Sandia Corporation (Sandia), DOE is notifying you of Class 1 modifications to the operating permit for the Hazardous Waste Management Facility (HWMF) at Sandia National Laboratories/New Mexico (SNL/NM) (EPA ID No. NM5890110518). The HWMF is operated under Resource Conservation and Recovery Act (RCRA) Permit NM5890110518-1, issued to the DOE and Sandia.

The HWMF is used for storage and repackaging of RCRA-regulated wastes generated by SNL/NM operations. The wastes are transported to off-site permitted facilities for treatment, storage, and/or disposal.

DOE and Sandia have modified the HWMF Contingency Plan (Attachment E to the operating permit) to reflect the following changes:

- Updates to the roster of personnel who serve as emergency coordinators.
- Updates to organization names and titles.
- Correction of minor typographical errors.

In accordance with New Mexico Administrative Code, Title 20, Chapter 4, Part 1, Subpart IX (20.4.1.900 NMAC) incorporating Title 40 of the Code of Federal Regulations, Part 270.42(a) (40 CFR 270.42(a)), these changes took effect on July 9, 2013.

These changes do not substantially alter the permit conditions (see 20 NMAC 4.1.900/ 40 CFR 270.42(d)(2)(i)) and do not reduce the capacity of DOE and Sandia to protect human health and the environment.

Any questions regarding these permit modifications may be directed toward any of the following contacts:

*Department of Energy Contact.* David Rast, (505) 845-5349.

*Sandia National Laboratories Contact.* Anita Reiser, (505) 284-4048.

*New Mexico Environment Department Contact.* David Cobrain, (505) 476-6000.
