

SANDIA NATIONAL LABORATORIES

Securing a Peaceful and Free World through Technology

SAND2010-7153P

 Sandia National Laboratories

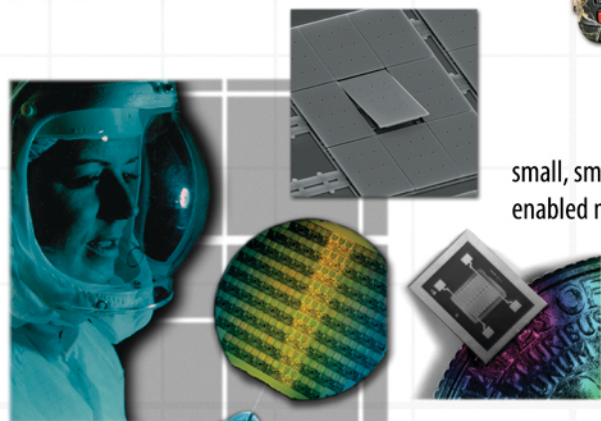

research and development applied to
homeland security and defense

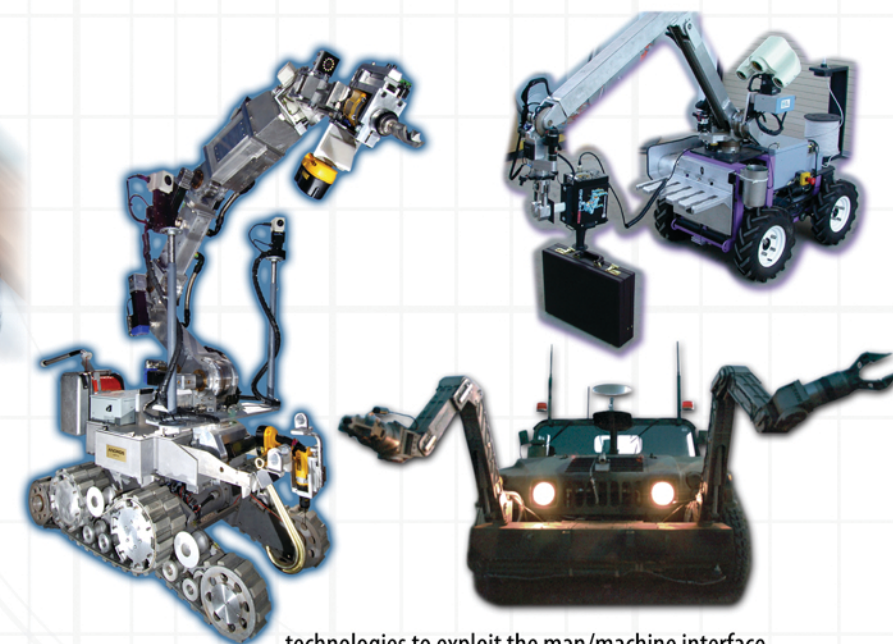

science with the mission in mind

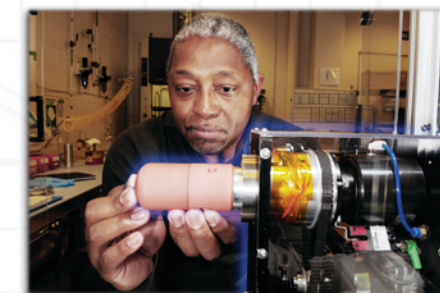

small, smart, computationally
enabled microsystems

technologies to exploit the man/machine interface

core mission:
safety, security and reliability of the nuclear weapon stockpile

core foundation in material science

energy security for the future

OFFICIAL PARTNER
USA SCIENCE & ENGINEERING FESTIVAL
