

JAEA Meeting – PP01

Vulnerability Assessment Timeline

July 20, 2010

Janice Leach

Overview

- **The US Vulnerability Assessment (VA) process can be broken down into three phases:**
 - **Plan**
 - **Conduct**
 - **Report**

Plan Phase

- **There are five steps in the planning phase:**
 - **Initiate the VA**
 - **Determine the objective and scope of the VA**
 - **Team selection**
 - **Schedule development**
 - **Information gathering**

Conduct Phase

- **Tasks of the Conduct Phase are to:**
 - **Gather data needed to characterize the physical security components**
 - **Analyze the system's ability to meet specified objectives.**

Report Phase

- **The Report Phase typically occurs within two steps:**
 - **Organize results**
 - **Inform management of results.**
