

Laboratory Exercise: Donning and Doffing PPE

What Personal Protective Equipment are you going to require in the lab for your hypothetical group? Will requirements change based on the work you are doing?

After watching the demonstration, you will don and doff all PPE that is necessary to enter the laboratory.

List of PPE that will be used:

Gloves	Gown
Eye protection	N-95 respirator
Shoe covers	

Please list the steps in order to don the PPE:

Please list the steps in order to doff the PPE:

After showing proficiency in donning and doffing PPE properly, the students will be dusted with Glogerm while dressed in their PPE, and they will practice doffing without “contaminating” themselves.
