# Management Responsibilities

---

- Dave Kessel and Moo Lee have provided vision and managerial support for the training program.
- As project manager, Kay Vugrin is responsible for planning, implementing, and overseeing the execution of the training program.
- Kay Vugrin will handle any questions about the curriculum, daily schedule, and long term training plans.

# Instructor Responsibilities

---

- Instructors are all experienced practitioners in the topics they will teach.
- Instructors will find answers to your questions about the topics they are teaching.
- Instructors will prepare course materials, reading assignments, and homework problems to accomplish the objective of the training program.

# Business Team Responsibilities

---

The following people will help you with work-related administrative questions:

- Anna Carrasco
- Shannon Casey
- Lillie Nichols
- Dina Howell

# Business Team Responsibilities

---

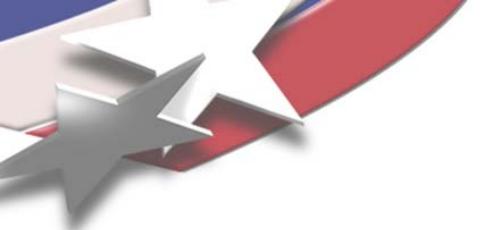

- **Glen McCoy** will answer any questions about your computer, network accounts, or other online access issues.
- **Ron Parsons** will answer any questions about facilities, security, and safety.
- **Chad Twitchell** will answer any immediate questions about scheduling when Kay Vugrin is not available.

# Trainee Responsibilities

---

- Understand and adhere to Sandia National Laboratories security and safety policies
- Understand the responsibilities and building access rules that accompany your badge
- Direct your questions to the correct individuals

## Trainee Responsibilities

---

- Prepare written questions during study time to discuss with the instructors during the following lecture.
- Stop the instructor at any point during the lecture if you have a question. Never hesitate to ask a question!
- Dedicate the appropriate time and effort to homework assignments, reading assignments, and individual study.
- Complete feedback forms at regular intervals to help Kay assess and improve the effectiveness of the training program.

# Training Success

---

- The success of the training program depends upon the instructors' ability to identify and present a large amount of information and the trainees' ability to assimilate this information.
- We must all work very hard to fulfill our responsibilities and to ensure effective communication.
- Never hesitate to ask a question!

## Training Program Details

---

- An extensive curriculum is available for your reference.
- The course order and instructors listed in the curriculum are subject to change.
- For classroom training, most days will include half days for lecture and half days for study and homework.
- Fridays will almost always be study days without scheduled lecture.
- Kay will provide a detailed weekly schedule.
