

Mercury Modernization build-to suit strategy, area planning, standard facility design and contracting methods reduce cost and accelerate delivery

Mercury Campus Rendering

The Mercury Area Plan defines a new, walkable campus environment that will feature modern, sustainable, net zero energy facilities

Mercury Building 1 design is being leveraged to accelerate delivery of new facilities at U1a, DAF and Area 6

A long-term vision for site development articulated through area plans that integrate sustainability features, support multiple functions and enable our 21st century technical workforce

This work was done by Mission Support and Test Services LLC, under Contract No. DE-NA0003624, with the U.S. Department of Energy.
