

Risk Likelihood Descriptor

Use this chart to assign ratings to risks based on their likelihood of occurring.

Rating	Description	Likelihood of Occurrence
1	Very Low (1% - 20%)	Highly unlikely, but it may occur in exceptional circumstances. It could happen, but probably never will.
2	Low (21% - 40%)	Not expected, but there's a slight possibility it may occur at some time.
3	Moderate (41% - 60%)	The event might occur at some time.
4	High (61%-80%)	There is a strong possibility the event will occur.
5	Very High (81%-100%)	Very likely. The event is expected to occur.
