Title: MPI Forum Sessions WG - MPI BOF SC 2022

Author(s): Pritchard, Howard Porter Jr.

Intended for: Supercomputing - The International Conference for High Performance Computing, Networking, Storage and Analysis, 2022-11-13 (Dallas, Texas, United States)

Issued: 2022-11-16

Los Alamos National Laboratory, an affirmative action/equal opportunity employer, is operated by Triad National Security, LLC for the National Nuclear Security Administration of U.S. Department of Energy under contract 89233218CNA00001. By approving this article, the publisher recognizes that the U.S. Government retains nonexclusive, royalty-free license to publish or reproduce the published form of this contribution, or to allow others to do so, for U.S. Government purposes. Los Alamos National Laboratory requests that the publisher identify this article as work performed under the auspices of the U.S. Department of Energy. Los Alamos National Laboratory strongly supports academic freedom and a researcher's right to publish; as an institution, however, the Laboratory does not endorse the viewpoint of a publication or guarantee its technical correctness.

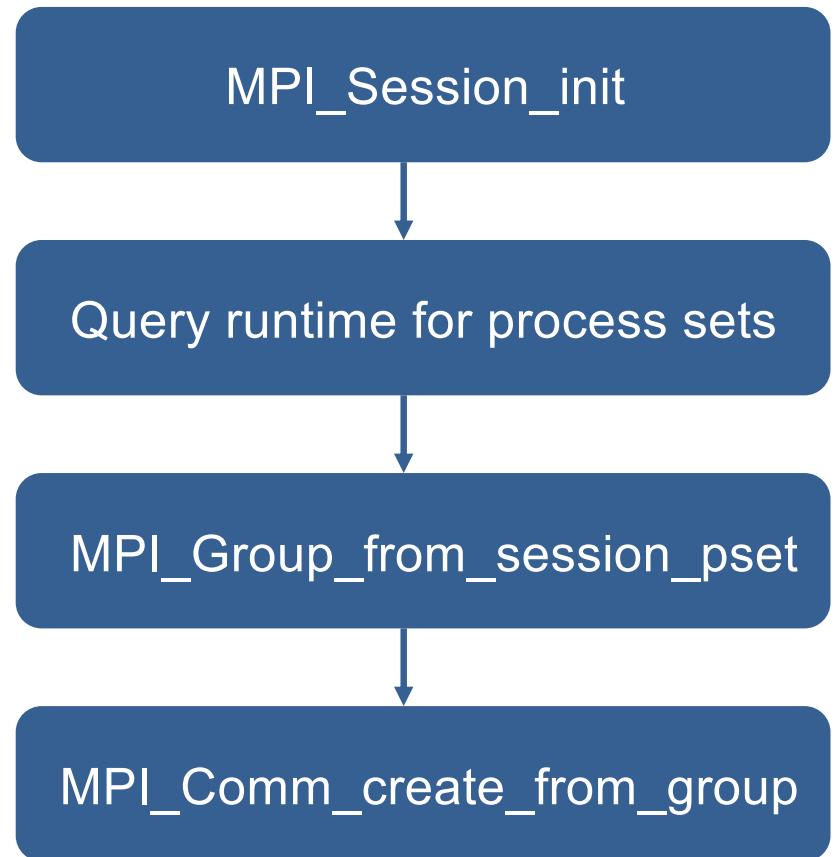

MPI Forum – Sessions WG

MPI BOF SC 2022

Howard Pritchard
Los Alamos National Laboratory

Sessions – what is this?

- **Different way to initialize/finalize MPI resources**
 - Start and stop MPI within a process multiple times
 - Isolation of MPI resources between different components of application
- **Part of MPI 4.0 standard**
- **Implemented in MPICH 4.0.x and Open MPI 5.0.x release streams**

Sessions WG – current activities

- Preparing/prepared clarifications and minor additions for the MPI 4.1 standard
- Working with fault tolerance WG to define Sessions-related behavior in the face of process failure, etc.
- Exploring how to better support malleable applications using Sessions-based and other approaches.
 - Dynamic process sets
 - Coupled with work in the PMIx organization
 - See, for example D. Huber, et al *Towards Dynamic Resource Management with MPI Sessions and PMIx* –
<https://doi.org/10.1145/3555819.3555856>
- Meet weekly (every other week) jointly with FT WG)
 - Mondays @ 1pm US ET
 - <https://github.com/mpiwg-sessions/sessions-issues/wiki>
- Related BOF later this afternoon 5:15-6:45 in D170
