A BIBLIOGRAPHY OF BIOLOGICAL APPLICATIONS
OF AUTORADIOGRAPHY, 1958 THROUGH 1959

Muriel E. Johnston
August 1959

LEGAL NOTICE

This report was prepared as an account of Government sponsored work. Neither the United States, nor the Commission, nor any person acting on behalf of the Commission:

A. Makes any warranty or representation, expressed or implied, with respect to the accuracy, completeness, or usefulness of the information contained in this report, or that the use of any information, apparatus, method, or process disclosed in this report may not infringe privately owned rights; or

B. Assumes any liabilities with respect to the use of, or for damages resulting from the use of any information, apparatus, method, or process disclosed in this report.

As used in the above, "person acting on behalf of the Commission" includes any employee or contractor of the Commission, or employee of such contractor, to the extent that such employee or contractor of the Commission, or employee of such contractor prepares, disseminates, or provides access to, any information pursuant to his employment or contract with the Commission, or his employment with such contractor.

A BIBLIOGRAPHY OF BIOLOGICAL APPLICATIONS
OF AUTORADIOGRAPHY, 1958 THROUGH 1959

Muriel E. Johnston

Crocker Laboratory
University of California Radiation Laboratory

August 1959

The following bibliography is designed to supplement the one published in July, 1958 as UCRL Report #8400. It contains a number of references previously missed. An arbitrary cut-off date of July 1959 was picked; thus those journals with delayed publication dates are not included. As before, those articles marked with an asterisk were unavailable for checking by the author.

Ageno, M., Intensifying screens for radioautography, Rendic. Ist. Super. San. 18: 329-332, 1955.*

Agren, E., Studies on radioactive sulphur-S³⁵ precipitated in benzidine sulphate I. A method of preparing solid samples and measurement of the self-absorption curve, Acta Radiol. 48: 385-96, 1957.

This report was prepared as an account of Government sponsored work. Neither the United States, nor the Commission, nor any person acting on behalf of the Commission:

- A. Makes any warranty or representation, expressed or implied, with respect to the accuracy, completeness, or usefulness of the information contained in this report, or that the use of any information, apparatus, method, or process disclosed in this report may not infringe privately owned rights; or
- B. Assumes any liabilities with respect to the use of, or for damages resulting from the use of any information, apparatus, method, or process disclosed in this report.

As used in the above, "person acting on behalf of the Commission" includes any employee or contractor of the Commission, or employee of such contractor, to the extent that such employee or contractor of the Commission, or employee of such contractor prepares, disseminates, or provides access to, any information pursuant to his employment or contract with the Commission, or his employment with such contractor.
