## Preface

Beginning with the January 1980 issue (DOE/AD-0010/7), *Selected DOE Headquarters Publications* provides cumulative listings of and an index to DOE headquarters publications issued since October 1979. (Publications issued during October 1977-September 1979 are covered in DOE/AD-0010/6.) Three types of headquarters publications have been included:

- Publications dealing mainly with program and policy that are attributed to and issued by headquarters organizations,
- Reports prepared by contractors (and published by DOE) to describe research and development work they have performed for the Department under 01-type ("Headquarters") contracts, and
- Environmental development plans and impact statements.

DOE staff members may borrow circulation copies from the Energy Library or may obtain copies, if in stock, from PA-41 (Public Inquiries, 252-5568). The contact person in the originating office should not be called for circulation or retention copies. Contact information is not provided for contractor reports.

Certain publications have been omitted. They include such items as pamphlets, "fact sheets," bulletins, newsletters, and telephone directories. Also omitted are headquarters publications issued under the "DOE-tr" (DOE translation) and "CONF" (conference proceedings) codes, technical reports from the Jet Propulsion Laboratory and NASA issued under "DOE/JPL" and "DOE/NASA" codes, and weekly/monthly reports of the Energy Information Administration.
