Preface

Selected DOE Headquarters Publications provides cumulative listings, from October 1, 1977 onward, of two groups of publications issued by headquarters organizations of the Department of Energy, and an index to their title keywords. The two groups consist of—

- Publications assigned a "DOE/XXX"-type report number code, where "XXX" is the 1- to 4-letter code for the issuing headquarters organization or the special type of environmental report (see Table of Contents), and
- Headquarters contractor publications ("HCPs"), prepared by contractors (and published by DOE) to describe research and development work they have performed for the Department.

DOE staff members may borrow circulation copies from the Energy Library or may obtain copies, if in stock, from IR-631 (Public Inquiries, 252-5568). The contact person in the originating office should not be called for circulation or retention copies.

Certain publications have been omitted. They include such items as pamphlets, "fact sheets," bulletins, newsletters, and telephone directories. Also omitted are headquarters publications issued under the "DOE-tr" (DOE translation) and "CONF" (conference proceedings) codes, and technical reports from the Jet Propulsion Laboratory and NASA issued under "DOE/JPL" and "DOE/NASA" codes.

HEADQUARTERS CONTRACTOR PUBLICATIONS

Reports to DOE on Research and Development Work Performed by Contractors for Headquarters Organizations

The Headquarters publications listed in this section are reports prepared by contractors (and published by DOE) concerning research and development work they have done for various Headquarters organizations. From October 1977 through July 1979 these contractor reports were issued under "HCP" (Headquarters Contractor Publication) report numbers, formed by adding the sequence number part of the contract number to an HCP report code. (After July 1979, reports by contractors to the contracting Headquarters organization are to have numbers beginning with "DOE," followed by a code for the contracting organization and the final digits of the contract number, and completed by a sequential number.)

The entries in this section are grouped by the DOE contracting organization (see Table of Contents) and arranged within each organizational grouping in alphanumerical order. An index to the report codes is provided below.
