Preface

This bibliography, *DOE Headquarters Publications*, provides listings of (mainly policy and programmatic) publications issued from the U.S. Department of Energy, Washington, D.C. The listings are arranged by the "report code" assigned to each of the major organizations at DOE Headquarters, followed by the three categories of environmental reports issued from DOE Headquarters. All of the publications listed, except for those shown as still "in preparation," may be seen in the Energy Library. A title index arranged by title keywords follows the listings.

DOE staff members may borrow circulation copies from the Energy Library or may obtain retention copies (if still "in stock") from Distribution (353-4169). The contact person in the originating office should not be called in the first instance regarding availability.

Certain publications have been omitted. They include such items as pamphlets, "fact sheets," bulletins and weekly/monthly issuances of DOE's Energy Information Administration and Economic Regulatory Administration, and employee bulletins and newsletters. Omitted from the bibliography altogether are headquarters publications assigned other types of report codes — e.g., "HCP" (Headquarters Contractor Publication) and "CONF" (conference proceedings).
