DISCLAIMER

This report was prepared as an account of work sponsored by an agency of the United States Government. Neither the United States Government nor any agency thereof, nor any of their employees, makes any warranty, express or implied, or assumes any legal liability or responsibility for the accuracy, completeness, or usefulness of any information, apparatus, product, or process disclosed, or represents that its use would not infringe privately owned rights. Reference herein to any specific commercial product, process, or service by trade name, trademark, manufacturer, or otherwise does not necessarily constitute or imply its endorsement, recommendation, or favoring by the United States Government or any agency thereof. The views and opinions of authors expressed herein do not necessarily state or reflect those of the United States Government or any agency thereof.

DISCLAIMER

Portions of this document may be illegible in electronic image products. Images are produced from the best available original document.

FOREWORD

The statistics set forth for the period covered by this report are based on data gathered from records available to the public. These data were derived from public county records of mining claim locations, from the public reports of state and federal land offices, from commercial reporting services, and from annual reports to stockholders of land companies. Accordingly, if any fee land has been acquired in a private transaction which has not been entered into a public record or report, that land will not be accounted for in this report. Manpower is not available to survey, acquire and evaluate data from each available source each reporting period. Accordingly, in any given report, the figures quoted for one or more land categories in a given state may be identical to the figures shown in earlier reports even though some change probably has occurred. Such change will be shown on subsequent reports. The figures for the acreage controlled at the beginning of the calendar year are those that were published for that date in the publication entitled, "Statistical Data of the Uranium Industry" GJO-100(76), published and distributed by the Grand Junction Office of the Energy Research and Development Administration.
