ERDA Environmental Development Plans

This is a new series, established for plans prepared jointly by the various technology programs and the Division of Technology Overview, AES. The cognizant technology Assistant Administrator and the Assistant Administrator for Environment and Safety approve each plan before it is issued.

The first report of the series, Oil Shale EDP for fiscal year 1977, carries the report number EDP/F-01(77). The letter F denotes an EDP for a major Fossil Energy program; sequential numbering will be used as additional EDPs are prepared for other FE programs. It is expected that an EDP for each major program will be prepared each fiscal year.

Copies of EDPs will be available to the public through the National Technical Information Service (see Preface, pg. ii).
