## **1.0 PROGRAM OVERVIEW**

The training program for personnel performing waste management duties pertaining to the PFP Treatment and Storage Unit is governed by the general requirements established in the Plutonium Finishing Plant Dangerous Waste Training Plan (PFP DWTP). The PFP Treatment and Storage Unit DWTP presented below incorporates all of the components of the PFP DWTP by reference. The discussion presented in this document identifies aspects of the training program specific to the PFP Treatment and Storage Unit.

The training program includes specifications for personnel instruction through both classroom and on-the-job training. Training is developed specific to waste management duties. Hanford Facility personnel directly involved with the PFP Treatment and Storage Unit will receive training to container management practices, spill response, and emergency response. These will include, for example, training in the cementation process and training pertaining to applicable elements of WAC 173-303-330(1)(d). Applicable elements from WAC 173-303-330(1)(d) for the PFP Treatment and Storage Unit include:

- procedures for inspecting, repairing, and replacing facility emergency and monitoring equipment;
- communications and alarm systems;
- response to fires or explosions; and
- shutdown of operations.

The PFP Unit DWTP includes the job titles and job descriptions for personnel who work at, or are matrixed to, the Plutonium Finishing Plant. The PFP DWTP identifies the five worker positions associated with the PFP training program. The worker positions of All Employee and General Worker are not reproduced within this document. All activities within the PFP Treatment and Storage Unit fall within the remaining three worker positions: Advanced General Worker, General Manager, and General Administrator. Requisite skills, education, and other qualifications are addressed in the PFP DWTP.

## **2.0 WORKER CATEGORIES AND ASSIGNED TRAINING**

The PFP DWTP contains a description of worker categories and related generator and TSD job duties. Table 1 presents the DWTP training requirements associated with the three worker positions of Advanced General Worker, General Manager, and General Administrator relating to the PFP Treatment and Storage Unit. A description of the introductory and continuing training courses identified in Table 1 are addressed in the PFP DWTP.

**Table 1 PFP Treatment and Storage Unit DWTP Training Requirements**

Worker Position			Training Required		Frequency
Advanced General Worker	General Manager	General Administrator	Course Number	Course Title	
X	X	X	000001	Hanford General Employee Training	Annual
X	X	X	200700	PFP Facility Orientation	One Time
X	X	X	200330	PFP Facility Emergency Procedure/Abnormal Plant Conditions	12 months
X	X	X	02006G	Waste Management Awareness	One Time
	X		02028B	Building Emergency Director ICP Communicator Training	Initial. Requal through 037515
		X	035010	Waste Designation	One Time
		X	035012	Waste Designation Qualification	12 months Requalification for 035012
		X	035020	Facility Sampling and Analysis	One Time
X	X		035100	Container Waste Management – Initial	Initial
X	X		035110	Container Waste Management – Refresher	Annual retraining for 035100
		X	035120	Waste Management Administrative – Initial	Initial
		X	035130	Waste Management Administrative – Requalification	Annual refresher for 035120
X	X	X	03E043	Building Emergency Plan for PFP	Annual

### 3.0 NAMES AND TRAINING RECORDS

Names of personnel and training records will be maintained as described in the PFP DWTP.
