

2001 GORDON RESEARCH CONFERENCE  
on MYOGENESIS  
FINAL PROGRESS REPORT

DEPARTMENT OF ENERGY  
GRANT NO.

DE-FG02-BIER 63125

The Gordon Research Conference (GRC) on MYOGENESIS was held at II Ciocco from 4/29/01 thru 5/4/01. The Conference was well-attended with 128 participants (attendees list attached). The attendees represented the spectrum of endeavor in this field coming from academia, industry, and government laboratories, both U.S. and foreign scientists, senior researchers, young investigators, and students.

In designing the formal speakers program, emphasis was placed on current unpublished research and discussion of the future target areas in this field. There was a conscious effort to stimulate lively discussion about the key issues in the field today. Time for formal presentations was limited in the interest of group discussions. In order that more scientists could communicate their most recent results, poster presentation time was scheduled. Attached is a copy of the formal schedule and speaker program and the poster program. In addition to these formal interactions, "free time" was scheduled to allow informal discussions. Such discussions are fostering new collaborations and joint efforts in the field.

I want to personally thank you for your support of this Conference. As you know, in the interest of promoting the presentation of unpublished and frontier-breaking research, Gordon Research Conferences does not permit publication of meeting proceedings. If you wish any further details, please feel free to contact me. Thank you.

Sincerely,

BARBARA WOLD
