Science

SciTech Connect Full-Text **MARC Records** include all the records from **SciTech Connect** that contain links to freely available full text. For the purpose of this service, full text includes textual material, multimedia files, and datasets.

The subject disciplines covered by **SciTech Connect** include physics, chemistry, materials, biology, environmental sciences, energy technologies, engineering, computer and information science, renewable energy, and other topics of interest related to the DOE mission.

Records can be downloaded by year, subject, DOE National Laboratory, or individual report. A zip file of the full collection is available.
