

SCIENCECINEMA

Searchable Videos Showcasing DOE Research

Multimedia videos highlighting the U.S. Department of Energy's most exciting scientific research

- Through a partnership with Microsoft Research, state-of-the-art audio indexing and speech recognition technology allows the user to search for specific words and phrases spoken by the presenter in these video files.
- Users simply enter a search term and the results list will point to the precise snippets of the video where the term was spoken.
- When the user clicks on the snippet, the video plays at that exact point.
