

Welcome!

***DOE Scientific and Technical
Information Program Meeting***

Walt Warnick, Ph.D.

Director

U.S. Department of Energy

Office of Science

Office of Scientific and Technical Information

Atlanta, GA

April 22, 2009

**U.S. DEPARTMENT OF
ENERGY**

Purpose

- **Science Knowledge Imperative**
 - Advancing science improves lives
 - Accelerating access to authoritative scientific information accelerates science itself
 - We not only have a mission, we are ON a mission!

Collaboration

- **“Working Together” is real in STIP**
 - Having a common goal to advance and accelerate science bonds us together
 - Doing the right thing because it's right, not because it's a requirement

Moving Forward

- We are honored to have two special guest speakers to share their insights and perspectives:
 - Jeff Salmon
 - Heather Joseph
- Thank you to each of you for being here, for your participation in the topics covered today and tomorrow, and in your contributions as we tackle new challenges together.
